It is ready, at last!

The quest system is open for your fun:

You can obtain quests by hunting Total War Monsters (now works only with Ninja, but soon will be active for other enemies): as soon as you find one you will receive a message. Follow the clues, travel all around Second Life with your Total War Shovel to accomplish your mission and gain Total War Points, Cards and to have the chance to win Linden dollars!

Get your own Shovel now and start the adventures!
